

amazon com captain marvel vol 2 down 9780785165507 - *i reviewed captain marvel vol 1 in pursuit of flight and loved it giving it five stars and my highest recommendation it is unfortunate i can t say the same for this volume let me be clear captain marvel is still a great series with a dynamic engaging main character and a wonderful story, **what could have been tv tropes** - this is when directors or writers release details about plots characters back stories or other elements they thought about adding to the story at one point but ultimately never did unlike all there in the manual however this new information is not released as word of god with the intention of being added to the canon these elements are only what could have been but never were and never, **the stinger tv tropes** - the 16th issue of the unbelievable gwenpool ends on a bittersweet ending her brother has successfully prevented her from ever entering the main marvel comics universe but there s the promise that gwen s life in her own world could improve and she ll be happy the page even ends with the end at the bottom the next page is the letters to the editor which show up at the end of every issue*
